REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art discloses a surface acoustic device having a resonator filter including a piezoelectric substrate with a pair of substrate edges and an upper surface including a main region and a bottom surface and the piezoelectric substrate having at least one step formed and extending from one of the pair of substrate edges to an inner edge of the step located spaced from one of the pair of substrate edges. However, the prior art fails to disclose, in combination with the invention that at least two interdigital transducers are provided on the main region of the piezoelectric substrate such that the shear horizontal type surface acoustic waves are excited by the interdigital transducer and having a wavelength of λ are reflected by the at least one inner edge and wherein the distance L between the inner edge of the at least one step and the corresponding one of the substrate edges is in the range of $(\lambda/10)$ to (8λ) and a depth of the at least one step is in the range of (2λ) to (6λ) .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
